REMARKS: Attached are recent examples of changes made by DDP upon authentication. You will note that changes are primarily editorial, made after editing by RCB with approval of the originator and coordinators. What is not reflected are those cases that are returned to RCB by DDP without authentication but with suggestive changes. In these cases RCB usually makes the changes and then sends to both the DDS and DDP changed copies for authentication. This is done so that

Unless pressed for time, RCB always sends the [redacted] prior to submitting the HR's for ADDS signature.

The regulations on the emergency visitation program are ready for approval. They are based upon and will replace [redacted] [redacted] which expire 1 September 1969. They were completely coordinated and have been amended to accommodate the suggestions made by you and the Office of Finance. The changes do not, in our opinion, require recoordination.

The notices which these replace were based on an amendment to the Foreign Service Act, which is applicable to persons stationed outside the United States.

Your suggestion that we consider modifying the program to cover personnel [redacted] has been conveyed to the Deputy Director for Support, but we recommended signature of the HR as now written to get the regulation on the books before the notices expire on 1 September. We further recommended that your suggested modification of the program be prepared and submitted to OGC for a review of its legality.

Signature of the three [redacted] is requested.
